Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Status

Claims 17-18, 20-41, 45-50, 53, 54, 70, 84-85, 90 are currently pending in the instant application. This Office Action is in reply to the RCE filed 9/12/05.

Specification

The amendment filed **6/30/03** is objected to under 35 U.S.C. 132(a) because it introduces new matter into the disclosure. 35 U.S.C. 132(a) states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: Specifically a "batched product" and its entire definition as seen on page 8 and continuing onto page 9 and used throughout the specification (6/30/03). The only mention of batched in the original disclose is mentioned on page 13 "two separate batches", page 16, "drug products from a given batch" and "two batches", page 17, "any given batch may be virtually unique." The specification dated 6/30/03 regarding a batched product and its definition is new matter.

Applicant is required to cancel the new matter in the reply to this Office Action.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 17-18, 20-41, 45-50, 53, 54, 70, 84-85, 90 are rejected under 35

U.S.C. 112, first paragraph, as failing to comply with the written description requirement.

The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

A batched product is not mentioned or discussed in the specification (7/9/99).

Only a drug product etc. is discussed in the original specification.

Anthropogenically is not mentioned or discussed in the specification (7/9/99).

The specification is silent regarding "after batching in their anthropogenically isotopically unaltered batched concentration."

The specification is silent regarding "arranging said batched concentration." The specification only discloses arranging concentrations of isotopes.

The specification is silent regarding "an observed batched product"
